## Cane With A Light For Walking At Night

No more nighttime falls with the **PathLighter Lighted Walking Cane**. The cane features a super-bright xenon lamp positioned on the cane shaft to create a circle of light that safely shows you where you are going. While most lighted canes using LED lights offer only a limited lighting area, the vendor says that this cane casts a large circle of light that creates an illuminated pathway as you walk. According to the vendor, the cane will support up to 250 pounds and features an adjustable height from 34" to 39". Three AA batteries (not included) are required. There is a 30 day money-back guarantee. It is \$45.00 and you can check it out at the CareGiver Partnership. Visit

or call 1-800-985-1353 (or 1-920-729-7091 locally). Item #AOPL-1000-1.

## Tired Of Struggling To Tie Your Shoelaces?

With the **Coilers No Tie Shoelaces**, all you have to do is tighten or loosen your shoelaces, eliminating the dexterity and finger-strength challenges of making knots. These laces have no pressure points so they permit full natural movement. The coiled shoelaces are designed specifically to allow you to slip your shoes on safely and easily without having to tie the laces. The laces come in black or white, are sold in pairs and fit up to eight pairs of eyelets. NOTE: The vendor says that due to hygiene regulations, these items cannot be returned. perature readings range from -4F to +248F, and the probe activates at the touch of a button. The probe itself is 5" long, and the overall length of the thermometer is 9-1/2". Special levers flip up when you want to remove or reposition the grabber. And this model comes with a

red/green changing safety indicator so you can easily check to make sure the grabber is securely attached to the surface. It measures 11" x 3" x 3-1/4" so you can easily take it with you when you travel. It is available for \$17.95 at Aids for Arthritis. ## These Mugs Are Made For Hugging

If you have trouble gripping ordinary mugs, here is a handy alternative. The **Easy-Grasp Mug** is lightweight and durable, and it is specially engineered so you can slip one hand through the oversized handle, placing your thumb on top for leverage. Then you wrap your other hand around the mug itself, and your fingers fit naturally into the deep rounded grooves for stability. A

dual wall design protects your hands from heat and cold while the beverage keeps its original temperature. It is made of lightweight polycarbonate but has the look of ceramic. The mug holds 10 ounces and is microwave and dishwasher (when on the top shelf) safe. It is available at Make Life Easier for \$10.00.
