

San Joaquin Regional Transit District
P.O. Box 201010
Stockton, CA 95201

San Joaquin RTD is adding the *San Joaquin RTD Volunteer Driver Program* to its menu of transportation services.

Currently the transit property operates fixed routes in the Stockton metropolitan, fixed routes connecting Stockton with Lodi, a commuter service connecting San Joaquin County to Sacramento, the Bay Area, and BART, a deviated fixed-route bus service connecting Ripon, Escalon, Manteca, Lathrop, and French Camp to Stockton, Tracy, and Lodi, and a paratransit curb-to-curb service for persons who, due to their disability, are unable to perform the skills necessary to use RTD's fixed route service.

Initially the San Joaquin RTC Volunteer Driver Program is intended to relieve demand pressure from the paratransit Dial-A-Ride (DAR) service it operates.
