HAPPY NEW YEAR—2010

Afraid of Slipping on a Wet Bathroom Floor?

This convenient alarm tells you whenever there's a puddling of water from an overflowing sink or toilet or other mishap. In addition to posing a risk of falls, pooling water also can migrate to carpeting or seep through the floor, causing considerable damage. But **The Water Alarm** sounds the minute it detects water. The monitor sits on the floor with tiny prongs in each of its three feet to alert you instantly when a puddle forms. There are no wired sensors to unplug or detach from the wall, so you can turn it off simply by picking it up. No batteries to remove or switches to turn off. And it's

easy to install. Just insert a 9-volt battery (not included) and place it on the floor. The vendor says it will operate for up to one year on the battery, and it sounds a loud 110 dB alarm for up to 72 hours. It's available for \$24.95 at The Alzheimer's Store. To learn more, visit www.alzstore.com or call 1-800-752-3238. Item #0253.

Instant Light Without the Hassle and Expense of Electrical Wiring...

...is possible with the instant peel-and-stick **Outlet Free Bulb Light**. This light features stay-cool operation that the vendor says is safer than a regular bare bulb. Yet it requires no electrical wiring. It is battery operated and looks just like a regular bulb fixture. The break-resistant plastic cover encloses a 2.5-watt replaceable light bulb that offers bright illumination. It turns on and off with the tug of the string, and you can slip the entire unit out of its mount for hand-held use. The peel-and-stick bracket attaches instantly for use in closets, pantries, stairwells, basements and other places. The device runs on 4 AA batteries (not included). The kit includes an extra bulb and optional mounting screws. It is available from Starcrest of California for \$4. View the item at www.starcrest.com or call 1-800-551-2843. Item #16254.

crossword puzzle, decipher a map, repair eyeglasses, look at photos and do other kinds of fine detail work.
